THE TIES THAT DIVIDE: TRADE, CONFLICT & BORDERS

The 2009 conference theme speaks to Toronto's place in the Great Lakes and its role as an early centre of interaction, exchange and trade between Aboriginal and European nations at the beginnings of the "New World Experience" for this part of the continent. It further speaks to the persistent frontier defined by the Great Lakes and the St. Lawrence River, and to the conflict between Aboriginal, French, British, American, and Canadian peoples over territory now divided by the Canada-United States border. The conference theme also invites topics beyond a regional focus, since Conflict and Trade, in the broadest application of the concepts, are universal dimensions of past and present life. Likewise Borders, to constrain, separate, and transcend, is a concept that plays out across the entire human experience, such as between urban and rural life, between genders, age and ethnicities enhancing identity, between the disciplines of archaeology, anthropology and history, between underwater and land-based archaeology, and between the archaeologist and others who also claim an interest in and ownership of the past.

We hope that you will visit us in Toronto, a city that both celebrates and transcends its past and global present with vibrant and diverse museums, galleries, neighborhoods and cuisines that showcase all of the world's cultures that now call Toronto home.

TRAVELING TO TORONTO

Lester B. Pearson International Airport is Toronto's major airport, located approximately 20 miles from the hotel. It is served by most major airlines, including direct flights from US gateways in the Northeast and Midwest. Budget ground transportation is available from Airport Express, which operates a 20-hour shuttle between terminals at Pearson to the downtown core, and stops at the Fairmont Royal York. The trip takes approximately 45 minutes and costs \$18.50CDN/per person one way or \$29.95CDN round trip. Tickets are available from the driver and at the ticket booth located at the hotel.

WEATHER

The mean temperature in early January of 2008 was a balmy 10° Celsius, therefore, snow may or may not be on the ground when you arrive in 2009. It is Canada after all, so you have to expect at least some snow and freezing temperatures, especially if you plan to tour out of town.

PRE-CONFERENCE WORKSHOPS

Wednesday January 7, 2009

Potent Potables: Experience a Genuine Period Hangover (W1)

Workshop Leader: Phil Dunning (Parks Canada)

Length: Half day (12:15 p.m. – 5:00 p.m.)

Cost: \$75 for SHA members, \$100 for non-members, \$50 for SHA student members, \$70 for student non-members (This includes transportation)

Location: Montgomery's Inn, 4709 Dundas Street West

Description:

Why did the Anglo-Americans like the drinks they did? When did punch come on the scene and how do you keep the lemon seeds out of it? This workshop will examine drinking habits within its social context and discuss material culture over the two centuries from 1650 to 1850. Join in as rum and brandy punches are created using period objects and reproductions. Yes, you will get to imbibe them, along with madeira and port. Do you have any artifacts related to drinking you would like to bring along?

The Standards and Guidelines for the Conservation of Historic Places and Parks Canada's CRM Policy (W2)

Workshop Leader: Christophe Rivet and Bob Garcia (Parks Canada)

Length: Full Day (9:00 a.m. – 5:00 p.m.)

Cost: \$70 for SHA members; \$95 for non-members; \$50 for SHA student members; \$70 for student non-members

Description:

This one-day workshop will offer an initiation to two of the tools created by Parks Canada and Heritage Places Initiative and used at Parks Canada in the management of its cultural resources. With the use of case studies and group discussions, participants will use a values-based decision-making process and find solutions to CRM issues and the protection of archaeological resources.

An Archaeologist's Guide to Documentary Filmmaking (W3)

Workshop Leaders: Peter J. Pepe (Pepe Productions) and Joseph W. Zarzynski, RPA (Bateaux Below, Inc.)

Length: Full Day (9:00 a.m. – 5:00 p.m.)

Cost: \$80 for SHA members, \$105 for non-members, \$50 for SHA student members, and \$70 for student non-members

Description:

The documentary is a window to worlds that people otherwise would seldom visit. It is an unequalled storytelling vehicle and thus is an important genre to our culture. Recent

advances in digital video technology and documentary filmmaking have made it possible for archaeologists and cultural resource managers to work in collaborative partnership with community-based video production companies to create quality documentaries on a micro-budget. This workshop, taught by an award winning documentary filmmaking team, will guide workshop participants through the various stages of creating a documentary. Learn about research and development, script writing, pitching a proposal, funding, proper interview techniques, acquiring and storing archival images and footage, animation, legal issues, video technology, production, editing, selecting music, film festivals, markets, distribution, and promotion. Whether your goal is to create a network or cable feature, a DVD to sell in historical societies, a video production as a museum exhibit, or to simply be viewed on Youtube.com, an understanding of the anatomy of “doc” filmmaking is required. Bring a notebook, pen, and your questions.

Archaeological Illustration (W4)

Workshop Leader: Jack Scott

Length: Full Day (9:00 a.m. – 5:00 p.m.)

Cost: \$85 for SHA members; \$110 for non-members; \$50 for SHA student members; \$70 for student non-members

Description:

Want your pen-and-ink drawings to look like the good ones? Attend SHA’s Archaeological Illustration Workshop and discover that pen-and-ink is a skill and technique that can be easily taught. Pen-and-ink illustrations can be done faster, cheaper, and are considerably more attractive than any black-and-white illustrations done on computer. It may be the old-fashioned way, but it is still the best. This will be the eighth illustration workshop in the last ten years. The previous six have been quite successful. Jack Scott is a well-known archaeological illustrator living in Chicago, with a distinguished client list and illustrations in many publications. Besides a degree in anthropology and fieldwork and lab experience, he brings over 35 years experience in the commercial art business to his “nuts-and-bolts” approach to learning illustration. Workshop participants will learn about materials and techniques, page design and layout, maps, lettering, scientific illustration conventions, problem posed by different kinds of artifacts, working size, architectural rendering, reproduction concerns, ethics, and dealing with publishers. Since most archaeological illustration is done in black and white, pen-and-ink techniques will be the major focus of the workshop. A reading list and pen and paper will be provided, but feel free to bring your own pens, other tools and, of course, questions. Be ready to work.

Practical Aspects of Bioarchaeology and Human Skeletal Analysis (W5)

Workshop Leaders: Thomas A. Crist (Utica College) and Kimberly A. Morrell (URS Corporation)

Length: Full Day (9:00 a.m. – 5:00 p.m.)

Cost: \$85 SHA members; \$110 non-members; \$50 SHA student members; \$70 student non-members

Description:

The purpose of this workshop is to introduce participants to the practical aspects of identifying, excavating, storing, and analyzing human remains from historic-period

graves. It also will address the appropriate role of the historical archaeologist in forensic investigations and mass fatality incidents. This interactive workshop is led by a forensic anthropologist and an archaeologist who collectively have excavated and analyzed more than 2,000 burials. Among the topics that will be covered are the most effective methods for locating historical and clandestine graves; correct field techniques and *in situ* documentation; the effects of taphonomic processes; post-excavation stabilization of human bones and teeth; chains of custody and other relevant police procedures; relevant health and safety issues; and fostering descendant community involvement and public outreach efforts. Participants also will review the basic analytical techniques that forensic anthropologists use to determine demographic profiles and recognize pathologic lesions and evidence of trauma. No previous experience with human skeletal remains is required to participate in and benefit from this workshop.

A Survey of Chemistry for Archaeologists (W6)

Workshop Leaders: Claudia L. Brackett (California State University Stanislaus) and Richard J. Lundin (Wondjina Research institute)

Length: Two full days. Tuesday, January 6 (class) and Wednesday, January 7 (field)

Cost: \$95 SHA members; \$120 non-members; \$60 SHA student members; \$75 student non-members

Description:

Chemistry has always been an effective tool for the modern archaeologist. However, with the development of new technology, chemical analysis is becoming increasingly easier, cheaper and thus more important. This workshop is designed to give the practicing archaeologist a basic working understanding of the elementary chemical principles that are applicable and specific to archaeology. The class is targeted for a participant that has little or no previous background in chemistry. Topics to be covered are “Elements, Molecules and Biomolecules,” or what is in that stuff anyway?, “Chemical Statistics and Instrumental Techniques,” or “understanding all that gibberish that came back from the lab,” and “Soil Chemistry,” or “getting information when you can’t see a thing.” Topics will be presented in a combination of lecture and hands-on demonstrations. We will be using a simple UV-Visible spectrophotometer and a portable X-ray Fluorescence (pXRF) spectrometer plus anything new that we can bring to show you. Participants are encouraged to bring their own specimens for non-destructive analysis. The specimens should be solids (not liquids) and either 10 grams of material, or a surface area about 3/4 inch square.

Archaeological Conservation Field Techniques (W7)

Workshop Leader: Cliff Cook and Marthe Carrier (Canadian Conservation Institute)

Length: Two full days. Tuesday, January 6 and Wednesday, January 7.

Cost: \$125 SHA members; \$140 non-members; \$60 SHA student members; \$80 student non-members

Description:

This workshop describes the steps in setting up a field lab, from pre-season planning to the practical aspects of carrying out basic conservation procedures in the field. It provides information about the effect of burial on objects, methods to remove fragile objects from various burial environments, and the examination and identification of material. Basic

conservation processes that can be carried out in a field lab are discussed, including packing and protection of artifacts. For further information, please visit CCI's website: http://www.cci-icc.gc.ca/learning-opportunities/workshops/arch_field_techniques_e.aspx

PLENARY SESSION

Historical Archaeology Beyond The Borders of Historical Archaeology

Wednesday January 7, 2009

6:00 p.m. – 8:00 p.m.

Location: The Concert Hall, Convention Floor of the Fairmont Royal York Hotel

The plenary session will address the theme of the conference, which is the "Ties That Divide: Trade, Conflict and Borders." Invited panellists from across the globe will speak to the direction the practice of historical archaeology is advancing towards, in going beyond either singular models of global capitalism or descriptive detail. What theory guides the exploration of the material histories of marginalized people (Indigenous "other" or marginalized groups within and without the more predominant "Western societies" of the last five centuries), and what is the continual task the historical archaeologist faces in negotiating the always reformulating notion of "predominant European society" in time and place as well as economic and social class, and gender? How have the categories, fields of research, and topical foci within historical archaeology (the borders, if you will), increasingly become moot in light of a wider contextual engagement by people who can, broadly speaking, fall under the rubric of historical archaeology? Come, listen, and engage with panellists Dan Hicks, Susan Lawrence, Paul Mullins, and Andrés Zanarkin.

PUBLIC ARCHAEOLOGY SESSION

REEL Archaeology

Saturday January 10, 2009

Those attending will meet the real archaeologists featured in the films, who will speak with and answer questions from the audience. As well, archaeologists will meet with the public in the theatre's Cascading Lounge where there will be displays, demonstrations and book signings. During the event, a draw will take place. The entries will be from among forms downloaded from the conference website and validated at participating archaeological sites and exhibits visited in Toronto. Completed forms will have been dropped off at the conference by 12:00 noon on 10 January.
